### Reasons for Allowance

1. Examiner has reviewed and considered Applicants comments as indicated on page 9 of 10 of Applicant's amendment of 2/06/06 and per Applicant's amendments claims 1, 4,5, 8, 9 and 12 are now in condition for allowance.

The following is an Examiner's statement of reasons for allowance.

The prior art of record does not teach or fairly suggest at least:

A digital signal processing apparatus, comprising:

"...a plurality of digital signal processing blocks having means for interpreting said command from said host processing block and for controlling a hardware component...and an interface for an extension function providing medium connected to said bus, wherein the extension function providing medium comprises means for accomplishing an extension function; and a script embedding a command for operating the extension function, and wherein, when the extension function providing medium is attached to said bus through said interface, the script is sent to said host processing block side and a function of the extension function providing medium is operated corresponding to the command embedded in the script", as best illustrated by FIG. 8 of 14 and in such a manner as recited in independent claims 1, 5 and 9 and as pointed out in page 9 of 10, of Applicant's amendment of (2/06/06).

Art Unit: 2192

Therefore, claims 1, 4, 5, 8, 9 and 12 are in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
